Behind the Scenes

Preparing for the August Holiday Programme

July was dedicated to planning and preparing for the August school holiday programme at Kisima Community Library.

Anticipating a higher number of children during the school break, our team developed a structured programme covering homework support, reading circles, digital literacy, life skills, environmental education, and special activities throughout the month.

Every aspect of the programme was carefully designed to provide children with a safe, engaging, and enriching environment where they can learn, explore, and grow during the holidays.

Looking Ahead And Our Events

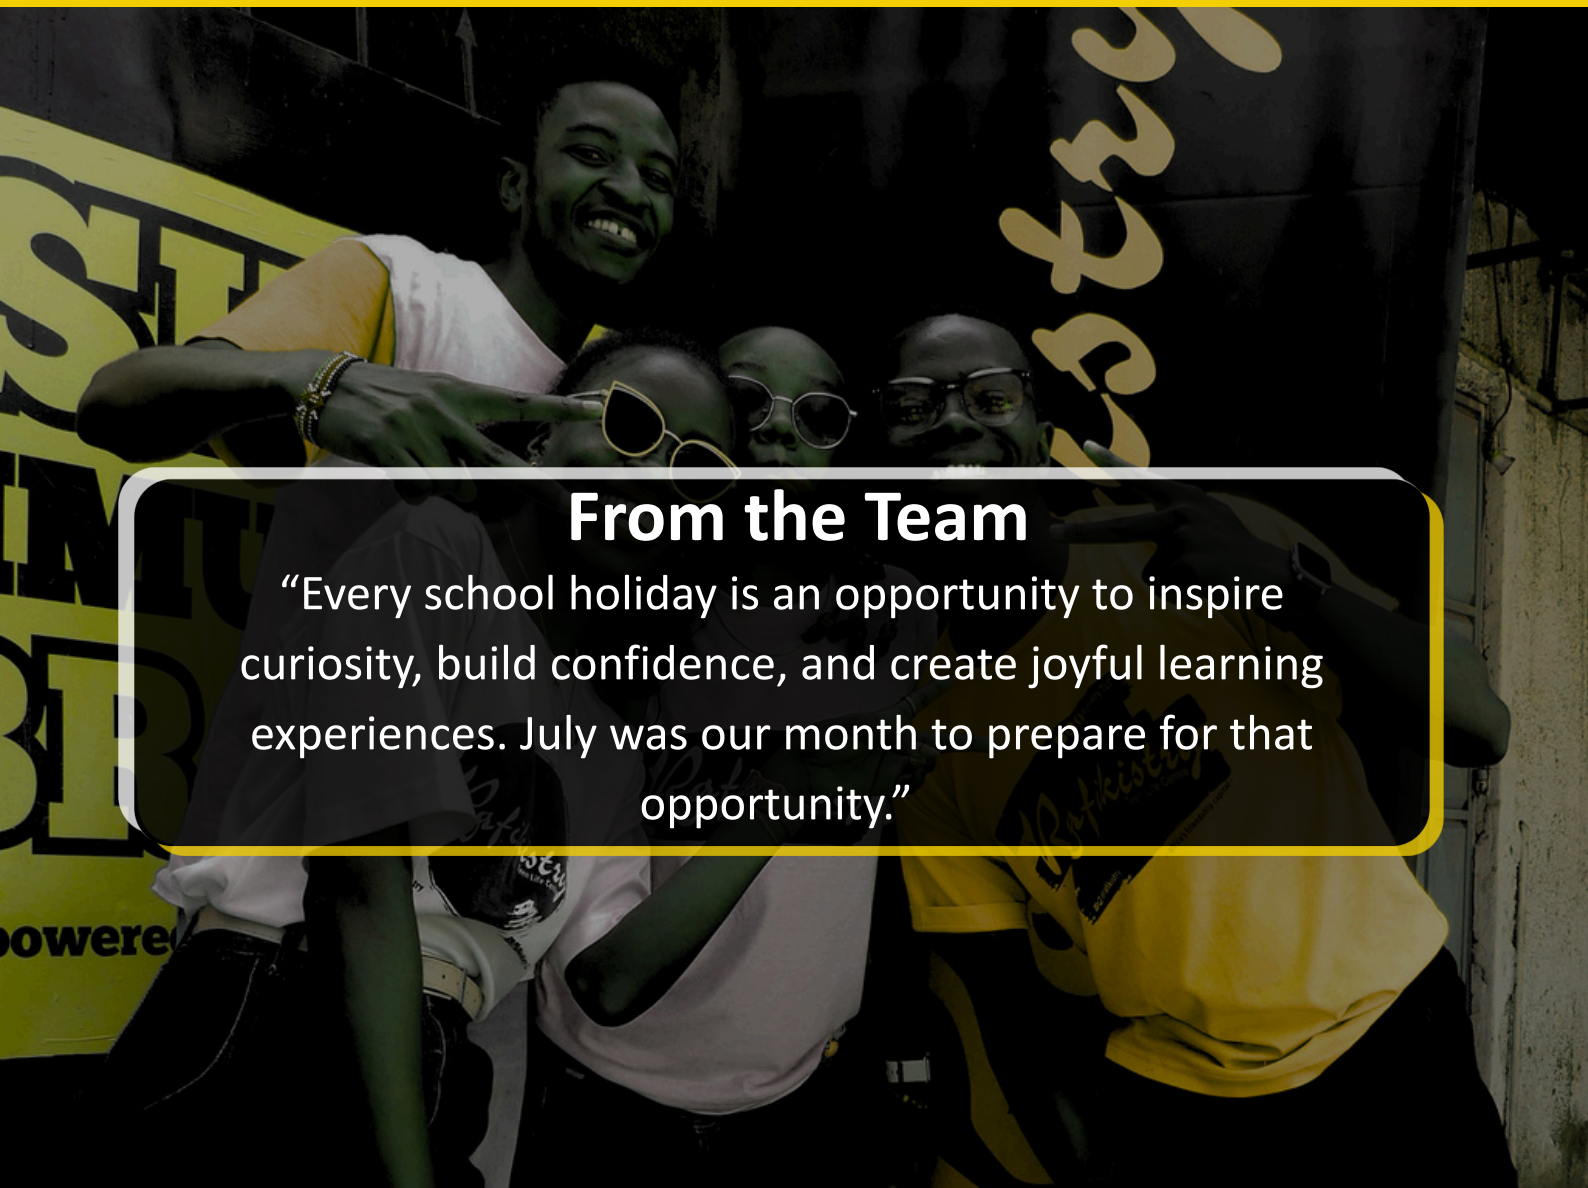

As schools break for the August holidays, Kisima Community Library is excited to welcome hundreds of children for a month of learning, creativity, and discovery.

Through engaging Reading Circles, homework support, digital literacy, life skills, environmental education, and our vibrant Colour & Create Experience, children will strengthen essential skills, express their creativity, and build confidence in a safe, nurturing environment where every day offers a new opportunity to learn and grow.

Help Us Welcome More Children

As we prepare to welcome more children this August, we continue to need support.

Donations of storybooks, art supplies, laptops, board games, snacks, or financial contributions will help us provide a memorable holiday programme for every child who walks through our doors.

From the Team

"Every school holiday is an opportunity to inspire curiosity, build confidence, and create joyful learning experiences. July was our month to prepare for that opportunity."
